Open Access

Open Science aims at transforming science through ICT tools, networks and media, to make research more open, global, collaborative, creative and closer to society.

It is about the way research is carried out, disseminated, deployed and transformed by digital tools, networks and media. It relies on the combined effects of technological development and cultural change towards collaboration and openness in research.

Some tools:

- ▶ **OpenAire** A EU Project in charge of developing Open Science in Europe
- ▶ **Dissemin** detects the paying access papers and allow their authors to deposit them in one clic in an open access archive
- ▶ **Zenodo** Research. Shared. — all research outputs from across all fields of research are welcome! Sciences and Humanities, really

CRCnetBase

Ebooks / Books

The screenshot shows the homepage of the CRCnetBASE website. At the top, there's a navigation bar with links for Home, Browse Content, Advanced Search, About CRCnetBASE, Subject Collections, How to Subscribe, Librarian Resources, News & Events, and Free Trial. On the right side of the header, there are links for Mobile, Register, Log In, and a search bar with an Advanced Search link. Below the header, there's a section titled "ENGnetBASE" with a brief description: "Since 1999, this eBook collection has grown to include over 2310 cutting-edge and bestselling references. With access to the latest handbooks in civil, mechanical, and electrical engineering, the Engineering Collection is sure to power your patrons' research to the next level." It also mentions that organizations can subscribe to the entire Engineering Collection which includes each of the following Signature netBASE titles or any of the following separately: CivilENGINEERINGnetBASE, ElectricalENGINEERINGnetBASE, GeneralEngineeringnetBASE, IndustrialENGINEERINGnetBASE, MechanicalENGINEERINGnetBASE, and MiningENGINEERINGnetBASE. To the right of this text are two call-to-action boxes: one for "Follow Us On Facebook!" with a Facebook icon, and another for "FREE TRIALS" available to libraries for all subject collections. The main content area features a section titled "Subject Areas" with a bulleted list of engineering disciplines: Aerospace Engineering, Bioprocessing, Chemical Processing & Design, Civil Engineering, Electrical Engineering, Engineering Design, Environmental Engineering, Geotechnical Engineering, Mass Transfer, Mechanical Engineering, Microengineering, Networking Communications, Packaging, Power Engineering, Process Engineering, Reference & Collected Works, Structural Engineering, Systems Engineering, and Telecommunications. Below this list, there's a link to learn more about a Free Trial to ENGnetBASE and a link to Subscription Information. At the bottom of the page, there are links for Terms and Conditions, Privacy Policy, Help, Site Map, and Contact Us. The footer contains a copyright notice: "Copyright © 2014, Taylor and Francis Group, LLC. All rights reserved." and links for CRC Press and Resource Center.

<http://www.crcnetbase.com/>: CRCnetBASE offers instant access to the world's premier scientific, technical and medical references with added support for libraries (Free Trials are currently not available for individual customers).

The screenshot shows the Knovel Browse interface. At the top, there are navigation links for Home, Browse, Tools, Support Center, My Knovel, and Welcome Guest. A search bar with the placeholder "Search Knovel" and a "GO" button is positioned above the main content area. The main content area features a sidebar with a list of technical reference categories, each with a lock icon indicating restricted access. The categories include Adhesives, Coatings, Sealants & Inks; Aerospace & Radar Technology; Biochemistry, Biology & Biotechnology; Ceramics & Ceramic Engineering; Chemistry & Chemical Engineering; Civil Engineering & Construction Materials; Composites; Computer Hardware Engineering; Earth Sciences; Electrical & Power Engineering; Electronics & Semiconductors; Engineering Management & Leadership; Environmental & Environmental Engineering; Fire Protection Engineering & Emergency Response; Food Science; General Engineering & Project Administration; Industrial Engineering & Operations Management; Manufacturing Engineering; and Knovel Sampler. To the right of the sidebar, there is a "Want to subscribe to Knovel?" section with a message about activation emails and a link to contact support. Below this is a "Premium Offerings" section listing various databases and resources such as AIChE/CCPS - Center for Chemical Process Safety, ASM International Materials Collection, ASME Boiler and Pressure Vessel Code, Section II - Materials, Chemical Resistance Database: Plastics and Elastomers, DIPPR Project 801, and Knovel Polymer Matrix Composites Database. Further down is an "Engineering Cases" section featuring a case study titled "AC Impedance Spectroscopy Measurement - Understanding the Effects of 2-, 3-, and 4-Electrode Cells and Cables on Experimental Data" by Vadim Lvovich, posted on Wednesday, December 24, 2014. Another case study, "A Case Study: Waste Reduction for a Metal Finishing Company" by Mujde Erten-Munil, was posted on Friday, November 28, 2014. The bottom of the page shows a snippet of another article titled "Basics of Blast Resilient Design of Concrete Frame".

What is Scopus Preview?

Last updated on 07/06/2018 01:29 PM

Scopus is the largest abstract and citation database of peer-reviewed literature: scientific journals, books and conference proceedings. Delivering a comprehensive overview of the world's research output in the fields of science, technology, medicine, social sciences, and arts and humanities, Scopus features smart tools to track, analyze and visualize research.

Scopus offers free features to non-subscribed users, and is available through Scopus Preview. Researchers may use Scopus to assist with their research, such as searching authors, and learning more about Scopus content coverage and source metrics.

The screenshot shows the IEEE Xplore Digital Library homepage. At the top, there are links to IEEE.org, IEEE Xplore Digital Library, IEEE-SA, IEEE Spectrum, and More Sites. On the right, there are links for Cart (0), Create Account, and Personal Sign In. The main header features the IEEE Xplore Digital Library logo and a search bar indicating 4,317,370 items found. Below the search bar are filters for All, Advanced Search, and Other Search Options. A large image of an all-electric airplane is displayed, with the text "Cleared for Takeoff" overlaid. To the right, a news article titled "IEEE Spectrum Explores Electric Airplanes" is summarized, stating that the all-electric airplane will be more affordable than its gasoline-powered rivals—and quieter. Below this, there are links to "Browse the issue in IEEE Xplore" and a navigation slider. The bottom navigation bar includes links for Journals & Magazines, Conference Publications, Standards, Books & eBooks, and Courses. On the left, a "Just Published" section highlights the "IEEE Transactions on Ultrasonics, Ferroelectrics, and Frequency Control" (Volume: 64 Issue: 9, Sept. 2017). On the right, a "Most Popular" section lists "Internet of Things for Smart Cities" by Andrea Zanella, Nicola Bui, Angelo Castellani, and Lorenzo Vangelista. A prominent blue banner at the bottom right encourages users to "Need Full-Text access to IEEE Xplore".

<http://www.dart-europe.eu/basic-search.php>: DART-Europe is a partnership of research libraries and library consortia who are working together to improve global access to European research theses. DART-Europe is endorsed by LIBER (Ligue des Bibliothèques Européennes de Recherche), and it is the European Working Group of the Networked Digital Library of Theses and Dissertations (NDLTD).

The screenshot shows the NDLTD website's main page. At the top left is a yellow circular logo for the 'NDLTD 20th Anniversary' from 1997-2017. To the right is a search bar with the placeholder 'Search this site...'. Below the header, there are several navigation links: News, Videos, Community, Thesis Resources, and Global ETD Search. A sidebar on the left contains links for About (Mission, Goals, and History; Financial Information; Official Documents; HQ); Lists (List of Members; ETD Metadata Providers); Contact Us (Directory, Board of Directors, Committees & Working Groups); Join Us (List of Members; Membership Benefits; Become Member; Renew Membership; Electronic Submissions Policy; Edit Personal Profile); and Support NDLTD (Volunteer). The main content area features a banner for 'NDLTD Celebrates Its 20th Anniversary' with a photo of Edward A. Fox, Executive Director and Chairman of the Board, NDLTD, dated August 2, 2017. Below the banner is a detailed text about the history of NDLTD, mentioning its formation in 1997 at Virginia Tech and its global impact.

NDLTD Celebrates Its 20th Anniversary

Edward A. Fox
Executive Director and Chairman of the Board, NDLTD
August 2, 2017

Almost 30 years ago, in November 1987, a first meeting was held to explore using SGML (Standard Generalized Markup Language) for dissertations as part of the Electronic Manuscript Project. This event and others in the first decade of activities related to the Networked Digital Library of Theses and Dissertations, NDLTD (<http://ndltd.org>) are described in <http://flex.cs.vt.edu/jpub/ETD/ETD.html>. Many early key events had been in the USA, including the U.S. Department of Education award by 9/1/1990 to "Improve Graduate Education with a National Digital Library of Theses and Dissertations" to Virginia Tech, which developed resources for theses and dissertations (ETDs), and set a start date for this mandate, 1/1/1997. This marked the first instance (with hundreds to follow) of requiring ETDs at universities and universities around the world. See a summary of how and why Virginia Tech became the first university to mandate ETD for graduate students in "ETD Celebrates 20th Anniversary" <http://ndltd.net/15010/71365>.

Given it was clear that a global initiative was emerging, NDLTD was connected with its new and ongoing name, Networked Digital Library of Theses and Dissertations, managed by a steering committee, which bid planning for the first ETD symposium in 1998 in Memphis, at the University of Tennessee, with 10 attendees. Subsequent years led to events in 1999 (Blacksburg, VA, at Virginia Tech, with 70), 2000 (St. Petersburg, FL, at U of S. Florida, with 275), 2001 (Pasadena, CA, at Caltech, with 200), and 2002 (Prague, CZE, at Brigham Young U, with 135). In 2003, NDLTD was incorporated in Virginia, USA, as an educational organization with 501(c)(3) non-profit status, with an International Board of Directors and a set of committees and working groups. That advance coincided with NDLTD's first conference outside USA, in Berlin, Germany, hosted by Humboldt U., with 215 attendees (see more about ETD Conference at Humboldt University Berlin in

*Networked Digital Library of Theses and Dissertations
(<http://www.ndltd.org/>) international organization dedicated to
promoting the adoption, creation, use, dissemination, and
preservation of electronic theses and dissertations (ETDs).*
